

OPEN HOUSE QUESTIONNAIRE

Introduction:

The City of New Westminster is reviewing a possible offer from the Provincial Government to gift the Gas Works site to the City as a Free Crown Grant. Terms and conditions of this offer would include:

- The Province maintains obligation to clean the site contamination
- The City would be responsible for the heritage building (Gas Works)
- The City would transfer 20 non-market housing units to another site(s)

1. Do you think the City should accept this Offer if the Province makes it? *Note that the Province must also complete their consultation process with First Nations prior to finalization of this process.*

- yes no

2. Do you agree the Gas Works building should be saved and restored? *Note that the building was erected in 1886, is one of only three former coal gasification plants that still remain in BC and that underneath the building is soil contamination.*

- yes no

3. If the decision is made to keep the Gas Works building, in your opinion, what is an appropriate amount of money that the City should spend to restore it?

4. Do you agree that the City should use this site for community and civic uses?

- yes
- no

5. Community and civic uses that have been suggested in the process so far have included a fire hall, parks and open space, and community uses. Are there other uses that should be considered?

6. Other comments:
