

CITY OF NEW WESTMINSTER

DESIGN CRITERIA

May 29, 2006
Last Updated: February 1, 2007

TABLE OF CONTENTS

1. DESIGN CRITERIA – GENERAL REQUIREMENTS	1-1
1.1 General	1-1
1.2 Approval of Services	1-2
1.3 Subdivision and Development Servicing Procedures	1-4
1.4 Drafting Requirements	1-4
1.5 Rights of Way and Easements	1-5
1.6 Revisions to the Design Criteria	1-5
1.7 Glossary of Terms	1-6
2. FIELD SURVEY REQUIREMENTS	2-1
3. STORM DRAINAGE SYSTEM.....	3-1
3.1 General	3-1
3.1.1 Stormwater Management Plan	3-1
3.1.2 Sediment Control and Sediment Control Plan	3-2
3.1.3 Design Frequencies.....	3-3
3.2 Design Requirements & Procedures For Collection System	3-4
3.3 Runoff Analysis.....	3-5
3.3.1 Rational Method	3-5
3.3.2 Runoff Hydrograph Method	3-8
3.4 Storm Sewers and Appurtenances	3-10
3.4.1 Sizing of Storm Sewers.....	3-10
3.4.2 Minimum and Maximum Velocity	3-10
3.4.3 Minimum Grade and Size	3-11
3.4.4 Storm Sewer Location	3-11
3.4.5 Minimum Depth of Cover.....	3-11
3.4.6 Pipe Joints.....	3-11
3.4.7 Curvilinear Sewers.....	3-12
3.4.8 Manholes – Standard Requirements	3-12
3.4.9 Manhole Diameters.....	3-12
3.4.10 Catch Basins.....	3-12
3.5 Service Connection.....	3-13
3.6 Surcharged Sewer	3-13
3.7 Inlet and Outlet Structure	3-14
3.8 Culverts	3-14
3.9 Overland Flow Routings.....	3-14
3.10 Roadway Surface Drainages.....	3-14
3.11 Minimum Building Elevation (MBE).....	3-15
3.12 Roof Drainage	3-15
3.13 Stormwater Management Facilities	3-15
3.14 Lot Grading	3-15
3.15 Oil and Grit Separators.....	3-16
4. SANITARY SEWAGE COLLECTION SYSTEM.....	4-1
4.1 General	4-1
4.2 Sewage Characteristics	4-1
4.3 Sewage Flows.....	4-1
4.4 Hydraulics	4-2

4.4.1	Downstream System Capacity	4-2
4.4.2	Formula and Method of Analysis	4-3
4.5	Piping.....	4-4
4.5.1	Size	4-4
4.5.2	Location	4-4
4.5.3	Curvilinear Sewers.....	4-4
4.6	Service Connections	4-4
4.7	Manholes	4-5
4.8	Pumping Stations.....	4-5
4.9	Force Mains	4-5
5.	WATER DISTRIBUTION SYSTEM.....	5-1
5.1	General	5-1
5.2	Demands	5-1
5.2.1	Consumption Demand	5-1
5.2.2	Fire Flow Demand	5-2
5.3	Hydraulics	5-2
5.3.1	Level of Service.....	5-2
5.3.2	Level of Analysis Required	5-3
5.3.3	Formula.....	5-3
5.3.4	Velocity and Headloss	5-3
5.4	Piping.....	5-4
5.4.1	Size	5-4
5.4.2	Deflection	5-4
5.4.3	Location	5-4
5.4.4	Crossings	5-5
5.5	Associated Items.....	5-5
5.5.1	Thrust Restraint	5-5
5.5.2	Isolation Valves	5-5
5.5.3	Hydrants.....	5-6
5.5.4	Air Valves.....	5-6
5.5.5	Flushouts/Blow-offs.....	5-6
5.5.6	Service Connections	5-6
5.5.7	Street Ends.....	5-7
5.5.8	Cul-de-sacs	5-7
5.6	PRV Stations	5-8
5.7	Corrosion Protection.....	5-8
5.8	Connection to Existing Mains	5-8
6.	LIGHTING AND TRAFFIC SIGNALS	6-1
6.1	General	6-1
6.2	Visual and Environmental Issues.....	6-1
6.3	Codes, Rules and Permits	6-1
6.4	Illuminance Levels	6-2
6.5	Light Pole Spacing	6-3
6.6	Luminaires, Poles, Wattages And Light Source	6-4
6.7	Decorative Street Lighting.....	6-5
6.8	Lighting Calculations	6-6
6.9	Voltage Drop	6-6
6.10	Traffic Signals	6-7
6.11	Conduit	6-8

6.12	Interconnect Conduit	6-8
6.13	Junction Boxes.....	6-8
6.14	Conductors.....	6-9
6.15	Service Equipment.....	6-9
6.16	Concrete Bases	6-9
6.17	Design Submissions.....	6-10
7.	TRANSPORTATION.....	7-1
7.1	General	7-1
7.2	Transportation Impact Study	7-1
7.2.1	General Requirements.....	7-1
7.2.2	Data Requirements.....	7-1
7.2.3	Transportation Analysis.....	7-2
7.2.4	Concerns to be Addressed.....	7-3
7.3	Transit.....	7-4
7.4	Traffic Calming	7-4
7.5	Bicycles	7-4
7.6	Access Limitations	7-4
7.6.1	Existing Major Intersections.....	7-4
7.6.2	Driveways.....	7-5
7.6.3	Intersections at Major Arterial Roads	7-5
7.6.4	Cul-de-Sacs.....	7-5
7.6.5	Lanes.....	7-5
7.6.6	Pedestrians	7-6
7.6.7	Disabled Access.....	7-6
7.6.8	Emergency Access.....	7-6
7.7	Road Cross Sections	7-6
8.	ROADWORKS SYSTEM.....	8-1
8.1	General	8-1
8.2	Geometric Design Requirements.....	8-1
8.2.1	Design Speeds.....	8-1
8.2.2	Design Gradients	8-2
8.2.3	Cross Slopes and Superelevation	8-2
8.2.4	Drainage.....	8-2
8.2.5	Vertical Curves.....	8-3
8.2.6	Horizontal Curves.....	8-3
8.2.7	Driveways.....	8-3
8.2.8	Intersections.....	8-3
8.2.9	Railway Crossings	8-4
8.3	Structural Design Requirements.....	8-4
8.3.1	Existing Pavement	8-4
8.3.2	Asphalt-Concrete Pavement.....	8-5
8.3.3	Sidewalks and Cross Walks	8-7
8.3.4	Curb/gutter	8-7
8.3.5	Medians	8-7
8.3.6	Utility Relocations	8-8
8.3.7	Road Embankment Grading.....	8-8
8.4	Postal Service	8-8
8.5	Traffic Signs and Street Markings	8-8

9.	STREET TREES & LANDSCAPING	9-1
9.1	General	9-1
9.1.1	Approval	9-1
9.2	Design Criteria.....	9-1
9.2.1	Landscaping Medians and Boulevards	9-1
9.2.2	Minimum Standards.....	9-1
9.2.3	Selection of Trees Species	9-2
9.2.4	Grating Requirements	9-2
9.2.5	Tree Root Restraints	9-2
9.2.6	Growing Medium.....	9-2
9.2.7	Irrigation	9-3
9.2.8	Drainage.....	9-3
9.2.9	Drawings.....	9-3
