CORPORATION OF THE CITY OF NEW WESTMINSTER

BYLAW NO. 1837, 1942

A Bylaw to provide regulations respecting the Water Works System of the City of New Westminster

THE MUNICIPAL COUNCIL of the Corporation of the City of New Westminster ENACTS AS FOLLOWS:

1. This Bylaw may be cited as “Water Works Bylaw”.
2. In this bylaw and any resolution passed thereunder unless the context otherwise requires, the following words and terms shall have the meanings hereinafter assigned to them:
 - (1) “Apartment House” or “Multiple Dwelling” shall mean any building, not being a lodging house or a hotel, or portion thereof, which is designed, built, rented, leased, let or hired out to be occupied, or which is occupied, as the home or residence of three or more families living independently of each other and doing their own cooking within their apartment or suite.
 - (2) “Boarding House” shall mean a building containing not more than fifteen sleeping rooms, where lodging and meals for three or more persons are provided, for compensation pursuant to previous arrangements or agreements, and with no provision for cooking in any individual room so contained.
 - (3) “City” shall mean the City of New Westminster.
 - (4) “Comptroller” shall mean the person appointed from time to time as the Comptroller for the City of New Westminster.
 - (5) “Consumer” shall mean any person, company or corporation who is the owner or agent for the owner of any premises to which water is supplied or made available from the works and also any person who is the occupier of any such premises, and also including any person who is actually a user of water supplied to any premises or by any services from the works.
 - (6) “Council” shall mean the Municipal Council of the Corporation of the City of New Westminster.
 - (7) “Duplex House” or “Double House” shall mean any building designed to be used by two families living separately.

- (8) "Engineer" shall mean the City Engineer of the City of New Westminster.
- (9) "Fire Service" shall mean any installation which may be provided to supply water for fire fighting purposes over and above the supply of water required for the usual purposes of the consumer.
- (10) "Garden Irrigation" shall mean the sprinkling or pouring of water by means of a hose, pipe or any sprinkling device upon, over and under the surface of the ground.
- (11) "Hotel" shall mean a building occupied as the more or less temporary abiding place of individuals who are lodged therein with or without meals and in which there are more than fifteen sleeping rooms, and with no provisions for cooking in any individual room or apartment.
- (12) "Lodging House" shall mean a building (other than a hotel) containing not more than fifteen sleeping rooms where lodging for three or more persons is provided for remuneration and with no provision for cooking in any individual room so contained.
- (13) "Metered Service" shall mean a service having attached thereto a meter or other measuring device for determining the quantity of water used by such service.
- (14) "Owner" shall, in addition to any other meaning, be deemed to extend to and include any person in occupation or possession of, or entitled to, or having any interest in the land, premises or property referred to under an agreement of sale.
- (15) "Person" shall, when necessary, mean and include natural persons of either sex, associations, corporations, bodies politic, co-partnerships, whether acting by themselves or by a servant, agent, or employee and the heirs, executors, administrators, successors, and assigns or other legal representative of such person to whom the context can apply according to law.
- (16) "Rate" shall mean the price or sum of money to be paid by any consumer for any water supplied or made available from the works.
- (17) "Rent" shall mean the sum of money charged for the use of a water meter or other measuring device.

- (18) "Service" shall mean and include the supply of water from the works to any person, company or corporation and all pipes, taps, valves, connections, meters and other things necessary to or actually used for the purpose of such supply.
 - (19) "Superintendent" shall mean the person appointed from time to time in charge of the works.
 - (20) "Water Commission" shall mean the committee of the Council having direct supervision of the works and all matters relating thereto.
 - (21) "Works or Water Works" shall mean the water works of the City of New Westminster.
3. There shall be two divisions for the conduct, operation and maintenance of the water supply of the City as follows:
- (a) Comptroller's Division – The Comptroller's Division shall be under the direction and supervision of the Comptroller whose duties shall be:
 - 1. To have the management and control of all officers, servants or employees engaged in the financial affairs of the water works and the water works office including the billing of water rates and from time to time to prescribe the duties of each officer, servant or employee pursuant to this bylaw and with power to suspend any such officer, servant or employee provided that any such suspension shall be reported to the water committee at its next regular meeting which committee may, subject to the approval of the Council, adopt or reject the Comptroller's report.
 - 2. To have the preparation, control and supervision of the financial books of the water works office.
 - 3. To have the collection of all water rates, meter rents and other accounts or charges levied or imposed pursuant to the provisions of this bylaw.
 - (b) Superintendent's Division –The Superintendent's Division under the control of the Superintendent shall have charge of the various works and properties required for the supply and distribution of water within the City and the Superintendent shall:

1. Subject to the direction of the water committee, the Council and the Engineer, have charge of the properties and works belonging to or connected with the distribution of water within the City.
2. Have charge and control of all engineering and mechanical work in connection with the water works and the installation repairs and inspection of such works.
3. Have control of all officers, servants and employees engaged or connected with the works or properties of the water works with power from time to time to prescribe the duties of such officers, servants or employees pursuant to this bylaw and with power to suspend any officer, servant or employee provided that any such suspension shall be reported to the Water Committee at its next regular meeting which committee may, subject to the approval of the Council adopt or reject the Superintendent's report.
4. Application for the laying of service pipes to any premises shall be made in writing to the Superintendent on such forms as may from time to time be prescribed by the Council, signed by the owner of such premises or by his duly authorized agent signing as such. Such owner shall be personally responsible for the payment of all rates and rents until he shall have delivered to the City Comptroller a duly signed notice ordering the discontinuance of such service.

Bylaw No. 5231, 1980

5. Upon receipt of such application the City may provide a three-quarter inch service from any existing main to the street line or boundary of such premises and shall be entitled to demand and receive from such applicant the sum of \$440.00 therefor.
6. Only one three-quarter inch service for the supply of any single house or premises shall be laid by the City for the sum mentioned in the preceding section and any person desiring a service to supply more than one house or of a larger size than three-quarter inch shall, subject to the approval of the Superintendent, be supplied with the same provided that at the time of making application therefor he shall deposit with the Comptroller a sum equal to the estimated cost of providing such service and should there be a difference between the actual cost of providing such service and the estimated cost therefor, such difference shall be paid by the applicant upon demand.

7. In the event that such service may be provided from either of two mains the Superintendent shall determine to which main the service shall be connected.
8. No work of any kind connected with the water service either for the laying of new or repairing of old services shall be permitted to be done upon or under the streets of the City by any person other than an employee of the City and no person shall be allowed to make any connection with the water works system whatever without permission in writing from the Superintendent or other officer authorized to give such permission.
9. All underground pipes on any premises shall be placed not less than thirty inches below the surface of the ground and all other pipes exposed to frost shall be properly and sufficiently protected therefrom and it shall be the duty of every consumer to provide that all taps, fittings and other things connected with the service within the premises are good and sufficient and installed and connected in accordance with the provisions of the Plumbing Bylaw and Building Bylaw and every premises shall be supplied with a properly placed stop and waste cock and a separate stop and waste cock shall be placed at the foot of every outdoor stand pipe. The Superintendent or any other officer or employee of the City shall refuse to turn on the water to any premises and may discontinue any service to any premises should this section not be complied with to the satisfaction of the Superintendent.
10. No person shall in any manner interfere with the water service in any street or make any addition or alteration in or about or turn on or off any City stop cock without permission in writing of the Superintendent or his duly authorized agent.
11. If any consumer on a flat rate shall use an unusual or unnecessary quantity of water or allow water to run to waste whether wilfully or by permitting pipes, taps, toilets or other means of distributing or storing water to remain unrepaired or shall vend, give or dispose of such water to a person other than a member of his household as stated in his application or shall allow any other person to vend, give or dispose of such water in such manner or increase by any device or expedient the amount of water agreed to be supplied to him by the City according to the terms of his application shall be guilty of a breach of this bylaw.
12. Every meter shall be placed in position by the officers or servants or employees of the City who shall have every access to the premises of the consumer for such purposes and also for the inspection of meters and other things connected with such service at all reasonable hours.

13. The Superintendent or any member of the water works staff authorized by him may make personal inspection of all pipes, taps, toilets or other means used for distributing water in any building or upon any premises in the City and if any such pipes, taps, toilets or other means used for distributing or storing water shall be found to be leaky or defective or if any wastage is found to exist notice shall be given in writing by the Superintendent requiring the person owning or using such pipes, taps, toilets or other means used for distributing or storing water to remedy such defects or leaks or to stop such wastage and if such requirements are not fulfilled within seventy-two hours from the service of such notice the water supply may be turned off and the person owning or using such pipes, taps, toilets or other means for distributing or storing water shall be guilty of a breach of this bylaw.
14. Where steam or hot water from boilers are fed by pressure direct from the City water mains the City shall not be liable for any injury or damage which may result from such pressure.
15. It shall be lawful for the City to reduce the quantity of water supplied to, or entirely discontinue the service of any consumer who has violated any of the provisions of this bylaw or when, in the opinion of the Council, the public interest requires such action.
16. No person other than an employee of the water, fire or board of works department shall open or interfere with any of the hydrants, stand pipes or hose connections of the City without written authority signed by the Superintendent. City employees engaged in sprinkling or cleaning the public streets may take water from hydrants, stand pipes or hose connections for sprinkling or cleaning purposes with the permission of the Superintendent. Any other person desiring water from a hydrant, stand pipe or hose connection shall make written application therefor to the Superintendent and shall give a bond in the sum of \$25.00 conditioned upon keeping the said hydrant, stand pipe or hose connection in good repair and to liquidate any damages that may result from the use of such hydrant, stand pipe or hose connection. The water department shall send an inspector to open such hydrant, stand pipe or hose connection and the time of such inspector shall be paid by the person applying for such water. In addition to such bond the applicant shall deposit with the City Comptroller such sum as is deemed adequate to pay for the water so supplied.
17. No person shall destroy or injure or in any manner interfere with any hydrant or other fixture or any property of the works.
18. No person shall obstruct any time or in any manner the access to any hydrant, valve, stop cock or other fixture connected with the

works and should any person obstruct such access to any such fixture by placing thereon or in the vicinity thereof any brick, stone, timber or other material, the Superintendent or any other employee or servant of the City may by his order, remove such obstruction and the expense of such removal shall be charged to and paid by the person so offending.

19. The Council may at any time by resolution passed by not less than three-fifths majority of the whole Council determine that any or all water service in the City shall be metered.
20. Meters shall be installed on the following services:
 - (a) Any service larger than three-quarter inch.
 - (b) Any service used for commercial or industrial purposes.
 - (c) Any service to premises housing two or more families.
 - (d) To apartments, lodging houses and boarding houses.
 - (e) To residences, eight rooms and over.
 - (f) To premises (land) containing ninety-five hundred square feet and over.
 - (g) To premises (land) having underground sprinkling system.
 - (h) To premises (land) having fishing ponds, lily ponds or fountains that are connected to the water works.
 - (i) To all additional services used for irrigation purposes.
 - (j) To any service where the consumer keeps horses and cows or either of them.
21. Meters larger than two inch shall be furnished by the owner, lessee or agent of the owner of the premises to be supplied. Repairs to all privately owned meters shall be made by or under the direction of the Superintendent and the cost of such repairs shall be paid by the owner of the meter.
22. Every consumer having a metered service shall pay for the full amount of water as registered by the meter, according to the rate applicable to the service, and no deduction shall be allowed on account of any waste of water, unless it be shown to the satisfaction of the Superintendent that such waste arose from an accident to the pipes or fittings on the premises of the consumer arising from some cause beyond the control of such consumer, and

unless it be further shown that such consumer used all reasonable diligence to stop such waste.

23. When it shall have been determined that a deduction should be made, as provided in the preceding section, the amount to be paid by the consumer shall be determined by taking the average reading of the meter for the six months preceding the accident, which average quantity shall be paid for at the rate fixed for such service and to which shall be added the cost to the City of the quantity registered in excess of such average.
24. If any meter stops or fails to indicate correctly the quantity of water passing through it the City shall be entitled to charge for such water according to the average consumption for the six months preceding the date upon which such meter was last found to be in order.
25. All damages to City Meters, due to hot water shall be chargeable against the person or premises supplied.
26. The City shall maintain and repair all City owned meters when rendered unserviceable through fair wear and tear and shall renew them if necessary, provided, however, that where replacement repairs of any meter are rendered necessary by the act, neglect, or carelessness of the owner or occupant of any premises any expense caused to the City shall be charged against and collected from the owner or occupant of such premises.
27. When any consumer whose water service is metered shall make a complaint that the bill for any past time has been excessive, the City will, upon written request, have such meter re-read and the service inspected for leaks. Should such consumer then desire that the meter be tested said consumer shall then make a deposit with the City Comptroller as prescribed in Section 28. The consumer shall have the privilege if he or she so desires to be present when such test is made. In case a test should show an error of over 5 percent of water consumed in favor of the City, the deposit will be refunded to the consumer, a correct registering meter will be installed and the bill will be adjusted accordingly.

If the test of such meter should show an accurate measurement of water or should show an error in favor of consumer, the amount deposited will be retained by the City to cover part of the expense of making such test.

28. Before making a test as outlined in the next preceding section, the person or persons requesting such test shall deposit with the Comptroller the following amount:

For 5/8",3/4",1",1 1/4",1 1/2"	\$ 1.50
" 2"	2.50
" 3"	5.00
" 4"	5.00
" 6"	10.00

29. (a) It shall be lawful for the Council from time to time to fix the rates to be paid by consumers for the water supplied from the works and to distinguish between classes or types of consumers, the rent to be paid for water meters, the amount to be paid for fire services and the amount of the standby charge to be paid when water is made available for any purpose, which charge may vary according to the size of the service made available, and to fix the hours during which sprinkling may be allowed.
- (b) The said rates as referred to in the preceding subsection shall be in accordance with Schedule "A" of this bylaw.
- (c) No prepayment for any service shall prevent the amount of any increase being charged to and collected from any consumer.
30. The City shall furnish to any consumer or ratepayer on request one copy of a printed statement showing the rates and rents for the time being in force for each type of service.
31. A consumer shall give five days' notice of the discontinuance of any service, which notice shall be in writing and must be delivered at the City Comptroller's Office, City Hall, or sent to the said City Comptroller, by prepaid letter, properly addressed, and the burden of proof of delivery or posting of such notice shall be upon the consumer. Every consumer shall be liable for the full amount of rates and rents chargeable for the service for five days after such notice has been delivered to or received at the said office.
32. When any service has been disconnected from any premises for non payment of rate or rent or violation of the provisions of this bylaw or at the request of the consumer or of the owner of the

premises, the City may require payment of a fee of fifty cents before ordering the service to be resumed.

33. In case of the non payment of rates or rents for thirty days after the day upon which they shall have become due and payable, the City may cut off the service in respect of which such rates or rents are due without notice.
34. When any rates or rents remain unpaid for 30 days after the day upon which the same may have become due and payable the City may sue for and recover the same in the Small Debts Court or other Court of competent jurisdiction. The power of suit contained herein shall not effect the charge against the land created by the "Municipal Act" nor preclude recovery of said rates or rents by any other method provided by statute.
35. No person shall turn on any service which shall have been turned off by the City and should any service be turned on by any person other than an employee of the City the service shall be deemed to have been continued from the date when the same was turned off and the owner shall be liable accordingly.
36. No contractor, builder or other person shall use for building purposes of any kind or description any water from any pipe or main of the water works, or from any other consumer without a written permission from the Superintendent nor until the amount fixed by the rates in force at the time has been paid and all provisions made for properly protecting the supply pipe have been complied with.
37. The City shall not be liable for the failure of the water supply in consequence of any accident or damage to the works, or any temporary stoppage thereof on account of alternations or repairs, whether such failure arises from the negligence of any person in the employ of the Corporation or other person whomsoever, or otherwise howsoever, but in the event of such failure or stoppage continuing for more than five consecutive days an equitable reduction shall be made on all rates for services affected thereby.
38. If at any time the Council shall deem it to be in the public interest it may direct that any or all services may be reduced or discontinued until it shall be considered advisable to restore the same.
39. Where any connection or cross connection exists between the City Water supply system and any other water supply system or source of water supply, there shall be installed and maintained an efficient double check valve system, of such design, workmanship and material as shall be approved by the Superintendent, but no further

connection or cross connections to any water supply other than the City system shall be permitted after this bylaw comes into effect.

40. All existing or future Fire Services shall be governed by the following:
 - (a) All fire services shall be so installed that water used or which can be used for other than fire purposes shall be metered.
 - (b) Any fire service that may be used for fire purposes only, may, at the discretion of the City, have a Detector Check Valve installed in lieu of a meter.
 - (c) If it be found that water is being used for other than fire fighting purposes on a service that has a Detector Check Valve installed, the Council shall have the power to shut off such service until a meter has been installed on such service at the expense of the owner.
 - (d) All Meters and Detector Check Valves used on fire services shall be of such make and pattern as may be approved by the Superintendent.
 - (e) A fire service may be installed on any premises without a meter or detector check valve providing a gate valve is installed and sealed at the property line, and kept securely sealed so as to prevent the using or consuming of water whatsoever except in case of fire. When the seal has been broken in cases of fire or otherwise, the owner or occupant of the premises shall so report to the Superintendent within twenty-four hours after the breaking of such seal, and the Superintendent shall thereupon have the same resealed.
 - (f) The cost of all meters, gate valves and detector check valves, and installation of same as defined in this section, shall be borne by the owner or occupant of the premises.
41. It shall be lawful for the City to supply water to the inhabitants of the City and localities adjacent to the City and the provisions of this bylaw shall extend to, and be binding upon, any person so supplied.
42. Nothing in this bylaw shall obligate the City to supply water to any person when the cost of laying the supply or service mains to the premises of such person would, in the opinion of the Superintendent, be unreasonable unless such person shall be prepared to pay to the City the cost of the laying the supply or service mains to his premises provided, however, that such person may appeal from the decision of the Superintendent to the Council

which may confirm, amend or reverse the decision of the Superintendent.

43. Every person who violates any of the provisions of this bylaw, or who suffers or permits any act or thing to be done in contravention or in violation of any of the provisions of this bylaw, or who neglects to do or refrains from doing anything required to be done by any of the provisions of this bylaw, or who does any act, or who violates any of the provisions of this bylaw shall be deemed to be guilty of an infraction thereof and liable to the penalties imposed.
44. All accounts for water, meter rates or rents shall be due and payable at the office of the Comptroller at the City Hall in the City of New Westminster or to such person as may be authorized by the Council from time to time to receive the same.

Bylaw No. 4822, 1975

Bylaw No. 6790, 2002

Accounts for water supplied through a meter shall be rendered either monthly or quarterly by the Treasurer and shall be deemed payable on the date of such account.

Bylaw No. 6238, 1994

Accounts for Domestic Rates (flat rates) shall be levied and collected annually in advance by the Treasurer.

Bylaw No. 6790, 2002

Accounts for stand-by charges for fire services only shall be rendered either monthly or quarterly in advance by the Treasurer and deemed payable on the date of such account.

Bylaw No. 4822, 1975 (repealed Section 45)

46. Any person guilty of an infraction of this bylaw, shall, upon conviction thereof before the Mayor, Police Magistrate, or any two Justices of the Peace, or other Magistrate or Magistrates having jurisdiction in the City of New Westminster, on the oath or affirmation of any credible witness, forfeit and pay at the discretion of the said Mayor, Police Magistrate, Justices, or other Magistrate or Magistrates convicting a fine or penalty not exceeding the sum of One Hundred Dollars (\$100.00) and costs for each offence, and in the default of payment thereof, forthwith it shall be lawful for such Mayor, Police Magistrate, Justices or other Magistrate or Magistrates convicting as aforesaid to issue a warrant under his or their hand and seal to levy the said fine or penalty and costs, or costs only, by distress and sale of the offender's goods and

chattels; and in case of no distress or insufficient distress found to satisfy the said fine or penalty, it shall, and may be, lawful for the Mayor, Police Magistrate, Justices or other Magistrate or Magistrates convicting as aforesaid to commit the offender to the common gaol or any lock-up house in the City of New Westminster for any period not exceeding two months (with or without hard labour) unless the said fine or penalty be sooner paid.

47. The following bylaws are hereby repealed:

Water Works Regulation Bylaw, 1899;
Water Works Regulation Amendment Bylaw 71, 1910; 145, 1912;
285, 1915; 546, 1925; 580, 1925; 699, 1927; 1685, 1939.

48. This bylaw shall not come into force unless and until it shall have been approved by the Lieutenant-Governor-in-Council.

Bylaw Nos. 6442, 1997 & 6493, 1998, 6511, 1998, 6644, 2000, 6707, 2001, 6790, 2002, 6892, 2003, 6983, 2004, 7073, 2005; 7137, 2006; 7205, 2007; 7290, 2008; 7360, 2009; 7426, 2010; 7498, 2011

SCHEDULE OF RATES

		<u>Effective Date</u> <u>January 1, 2012</u>		
A.	<u>RESIDENTIAL RATES</u> (Classification of user as defined by Zoning Bylaw No. 6680, 2001 at the time of adoption of this bylaw)	<u>Basic Flat Rate</u>	<u>5% Discount If Applicable</u>	<u>Net Flat Rate</u>
	(1) Single Detached Dwelling Annually	\$410.54	\$20.53	\$390.01
