

CITY OF NEW WESTMINSTER 2010 ENVIRONMENTAL POSTER CONTEST

From left to right: Nina Lalic, Taylor Johansen, and Joshua David

The City of New Westminster, in collaboration with School District #40 Student Services Department, and Green Learning Canada invited grades five and six elementary students to participate in a poster contest that allowed them to express their environmentally-related learning experiences creatively with the City. The theme of this year's contest was "**Sustainable Transportation: Now and in the Future**".

The contest provided an opportunity for students to participate in an environmentally-related activity that coincided nicely with Earth Day on April 22, 2010. Students were invited to create a poster that illustrated their personal commitment and/or vision on sustainable transportation in the future.
