END OF ADDENDUM #5

Yours truly,

Heather M. Rossi
Intermediate Buyer

FORM OF TENDER – Appendix 8**PRELIMINARY CONSTRUCTION METHODOLOGY**

(See paragraph 4.1 – 5.3.8 of the Instructions to Tenderers – Part I)

Tenderers shall provide a brief description of their preliminary construction and staging methodologies for the construction of:

- Ditch excavations
- Dewatering during excavation of ditches, lightweight fill, and storm sewer works

The description can be accompanied with a sketch. Descriptions could include time of work and a list of equipment, materials, consultants, and subcontractors.

Tenderer's Initials _____

Owner: Corporation of the City of New Westminster
(NAME OF OWNER)

Contract: Ewen Avenue Reconstruction (Phase 3)
(TITLE OF CONTRACT)

Reference No. NWIT-17-34
(OWNER'S CONTRACT REFERENCE NO.)

Prepared By: ISL Engineering and Land Services Ltd

To All Tenderers:

Date: October 5, 2017

This addendum shall form part of the original documents for the above noted contract and all other segments of the contract shall remain in force except as noted below:

1. – Form of Tender –

ADD: Appendix 8 – Preliminary Construction Methodology

Tenderers shall provide a brief description of their preliminary construction and staging methodologies for the construction of:

- Ditch excavations
- Dewatering during excavation of ditches, lightweight fill, and storm sewer works

The description can be accompanied with a sketch. Descriptions could include time of work and a list of equipment, materials, consultants, and subcontractors.

2. – Clarification –

- A. Threaded Joints on the Weholite storm sewer are acceptable. There are no specific requirements regarding length of pipe sections.
- B. All answers provided in Enquiries and Responses will form part of the original contract documents.
