ENQUIRIES AND RESPONSES # 1
NWIT-18-28
Tenth Avenue Roadway Lighting and Fibre Optic Infrastructure
New Westminster, BC

ANSWERS TO SUBMITTED QUESTIONS

- Q1 Please confirm that the price required for **item #4** in the schedule of quantities (Hydro-Vac around trees) is per unit and not by meters.
- A1 Correct, it is per tree.
- Q2 Please confirm the quantities for **item #8** and **#9** (Trenching and tackfill on boulevard and road crossing, respectively); they are a little short compared to the conduits quantities.
- A2 There is less trenching because there are some shared trenches with multiple conduits.
