ENQUIRIES AND RESPONSES #2
NWRFP-19-29
Climate Emergency Communications and
Engagement Strategies
New Westminster, BC

ANSWERS TO SUBMITTED QUESTIONS

- Q1 Our team of experts noted, the Community Energy & Emissions Plan has data on energy and emissions from 2007. Have the current energy and emissions been analysed to check how the City has been tracking performance over the last 12 years? Is this something we can propose as part of our plan?
- A1 No - the City does require this to be included in your response.
- Q1 The RFP outlines a specific project with a completion date of March 2020, will there be any additional opportunities to provide other work or services.
- A1 Yes – should there be similar work as outlined in this RFP, the City has reserved the right to use the lead Proponent for up to 5 years. There is no guarantee of additional work nor will there be any exclusivity with the lead Proponent.

END of Enquiries and Responses

Yours truly,

Patrick Shannon, SCMP
