**ENQUIRIES AND RESPONSES # 1**  
**NWRFP-21-08**  
**Play Equipment Replacement, Queen's Park Playground**  
**New Westminster, BC**

**ANSWERS TO SUBMITTED QUESTIONS**

Q1 Does the budget of \$200 000 also include GST?

A1 No, it does not include GST.

Q2 What ages should the playground be designed for?

A2 The proposed play equipment to focus on ages 5-12 years.

Q3 Page 5 indicates that the proponent “may” be required to provide a Performance Bond and a Labour and Material Payment Security, but page 41 indicates that the proponent “will” provide warranty and bond certificates. Could you please clarify if these will be a requirement?

A3 The City may require a Performance Bond and a Labour and Material Payment Security, if these securities are required, then the requirement on page 41 applies.

Q4 Could you provide a tree fence plan?

A4 Refer to Addendum #2

Q5 Could you provide an access route for a tandem axel dump truck?

A5 Refer to attached Site Access Diagram

Q6 Could the City please clarify what the base is under the Pour-In-Place rubber mounds?

A6 The poured in place rubberized surfacing system consists of two layers of recycled rubberized granules that are placed over a layer of compacted gravel base. This is a standard construction detail for this type of surfacing and was installed by a qualified installer.

Q7 I understand you are wanting a structure similar to the current one, like a tower or a tall structure for older children, something which gives the children the “risk factor”. Are you thinking of anything specific/something which is a MUST NOT? For example: Do the roofs need be permeable? No roofs at all?

A7 Please refer to 3.0 Business Requirements for equipment criteria. We will consider all proposed ideas for the play structure. For example, a proposal may include two options- one with a permeable roof and one without.

Q8 Part 2, Business Requirements, section 5.2 (page 12) b) Is it acceptable for the successful Proponent to provide a Letter of Guarantee that the equipment is intended for use by children ages 2-5 and ages 5-12?

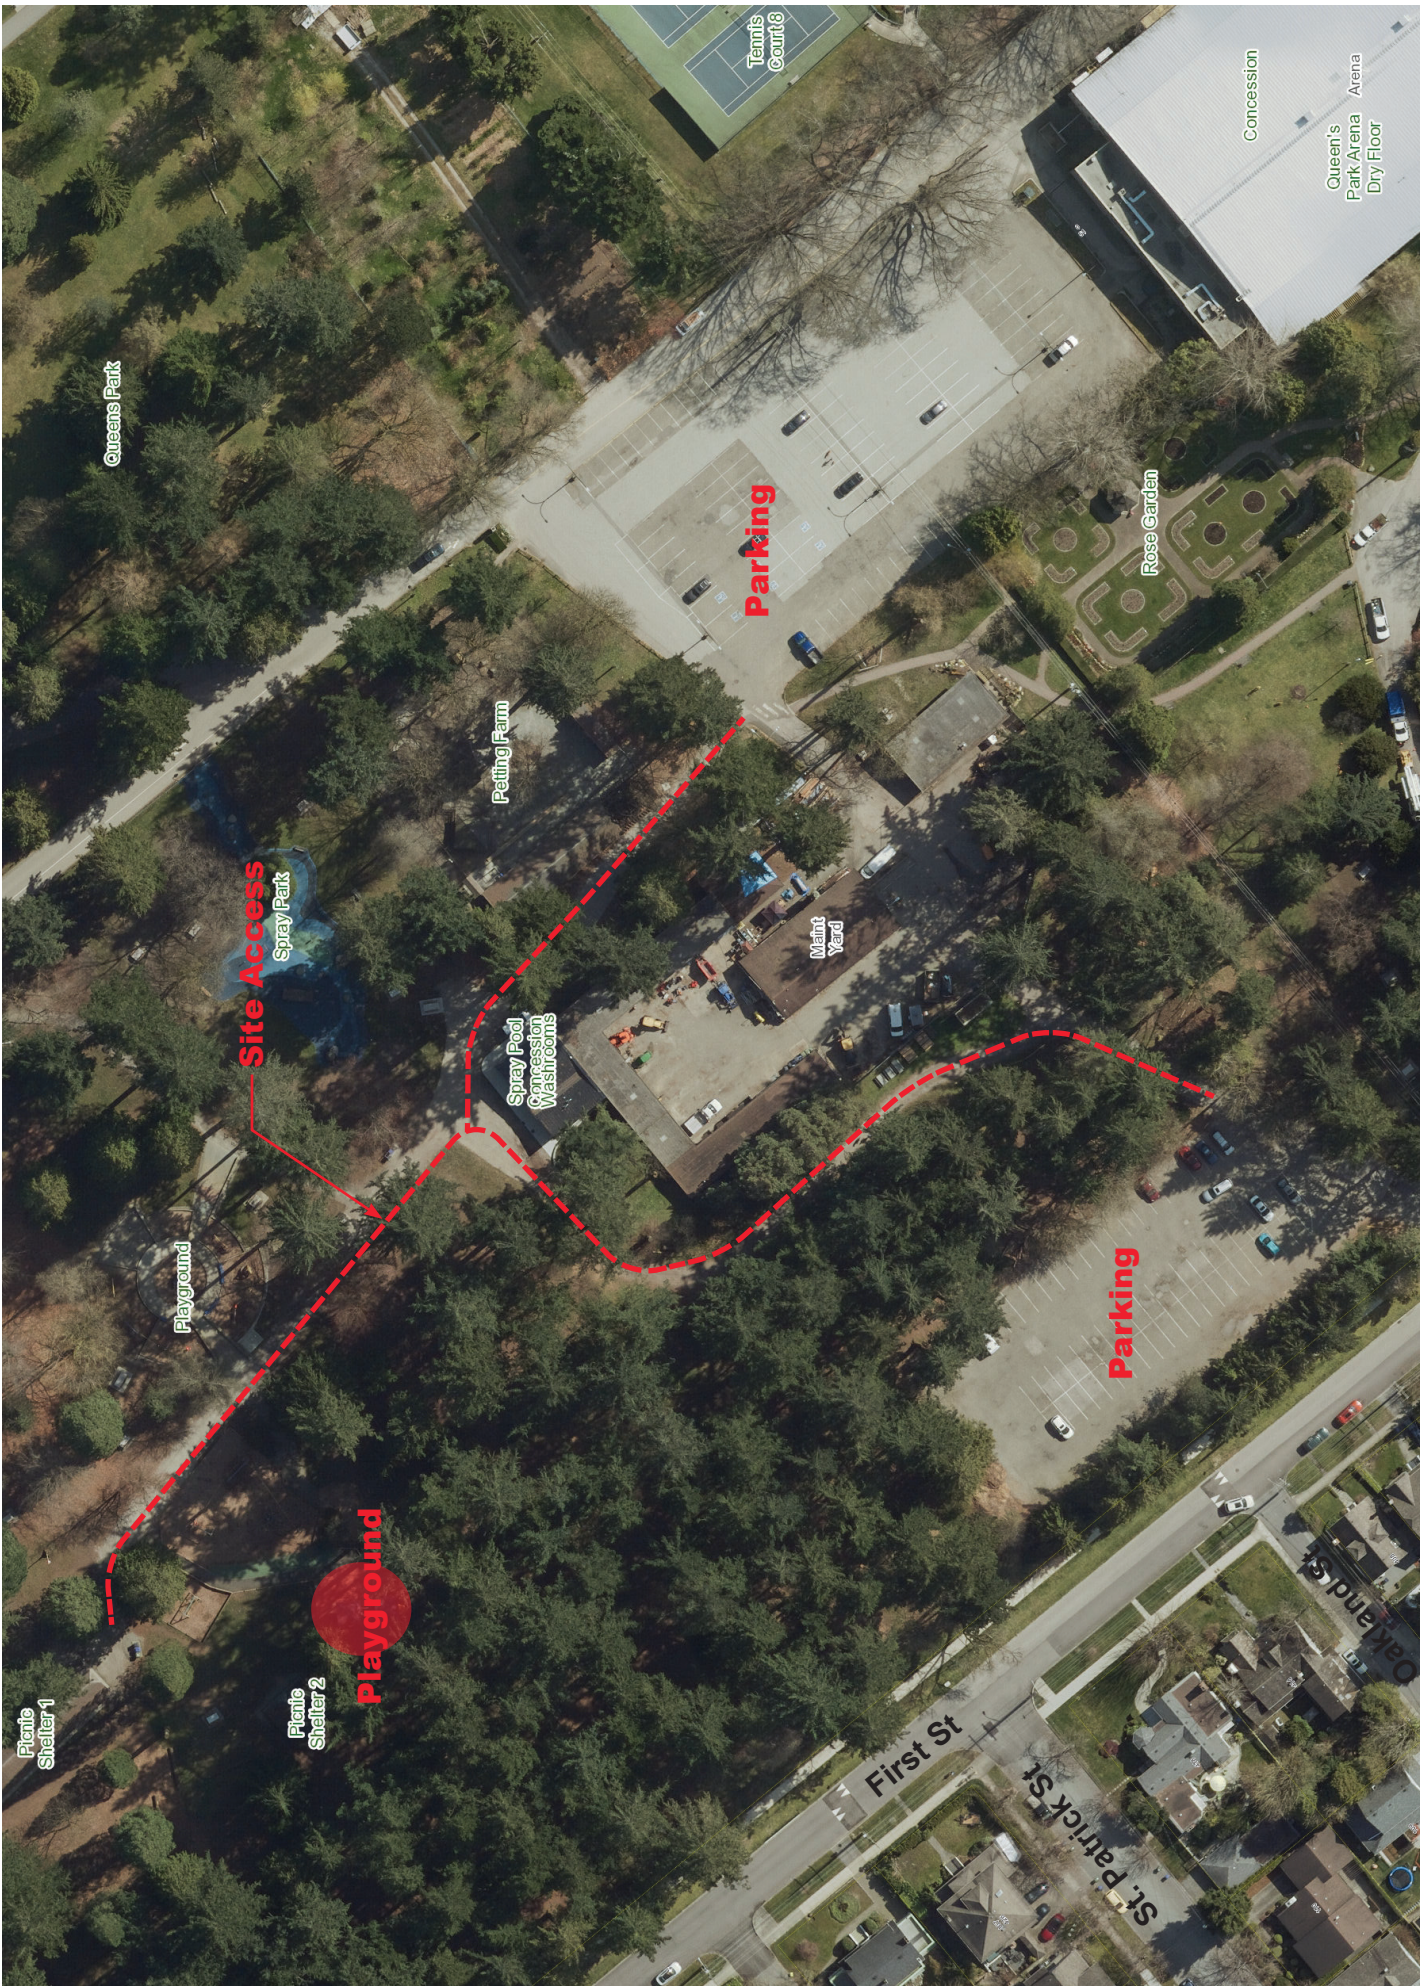

A8 Yes, this is acceptable.

### **END of Enquiries and Responses**

Yours truly,

Heather M. Rossi  
Intermediate Buyer
