ENQUIRIES AND RESPONSES # 1
NWRFP-25-05
DESIGN AND CONSTRUCTION OF ONE NEW TANDEM AXLE DERRICK
DIGGER
New Westminster, BC

ANSWERS TO SUBMITTED QUESTIONS

- Q1 Is there a drawing or more info available regarding what you require for a body configuration? The current spec has limited information.
A1 [Photos attached for layout reference. \(three pages following\)](#)
- Q2 Do you want a digger motor, and if so, what kind? (2-speed, Hydra sync)
A2 [The unit will not be used for digging, digger motor not required.](#)
- Q3 You mention a front winch on one line, but nothing else describing that. We suggest using a 16000lb FAWR (56000 lb GVWR) chassis if you require a front winch.
A3 [Current unit does not utilize a front winch. 56,000 GVWR is fine to support the build.](#)
- Q4 Can you confirm they want three (3) printed hard copies of this bid sent to you in lieu of an electronic bid submission?
A4 [The City would prefer printed hardcopies for submissions for this RFP.](#)
- Q5 Can you confirm the colour of the equipment?
A5 [Colour to be the same as the last build. PQ color code \(Ford\).](#)

END of Enquiries and Responses

Yours truly,

Ron Gidda, CSCL
Purchasing & Inventory Supervisor
