

January – February 2020

January 21, 2020

Beginning Saturday, January 25th, Eurovia British Columbia Inc., contractor for the City of New Westminster’s Carter Street Construction Project, will begin removing the concrete lock blocks used for containing the preload during the initial phase of this project.

Due to access constraints and overhead wires adjacent to Ewen Avenue, Eurovia plans to have empty flat deck trucks enter the site through the Queensborough Community Centre parking lot from Salter Street, escort them through the parking lot, and load the trucks with lock blocks adjacent to the work site. With consideration to public safety, the work will be performed on **Saturday, January 25th and Saturday, February 1st** while the schools are closed, with the intent of completing as much as possible during one shift of work. Eurovia will block off the work area with either fencing, or yellow caution tape and signs, and we respectfully ask that residents and visitors not park in these areas. Access to parking will be impacted due to the nature of the work. We will endeavor to minimize disruption as much as possible; indeed, this plan is designed to shorten the duration of this disruption.

If special consideration is required, please contact the City’s project manager.

Duration

January 25, 2020 & February 1, 2020

Hours of Work

Saturdays, 7am - 7pm

Road Closures

Traffic will be maintained in both directions along Ewen Avenue although minor off-peak delays may occur at times.

Impacts/Interruptions

Access to Queensborough Community Centre from Ewen Avenue will be single-lane alternating traffic. Access into Ryall Park from Salter Street may be periodically impacted. Parking will also be impacted.

Thank you in advance for your patience and cooperation during this important infrastructure improvement project. Should you have any questions or concerns related to this project, please contact one of the following:
