Project Category Assessment

Traffic Consideration	Definition	Value	Score
Lane Closures	Curb or Parking Lane only.	0	
	Single Lane Alternating Traffic.	1	
	Full Road Closure.	2	
TMP Footprint	TMP impacts one block face.	0	
	TMP impacts more than one block face.	1	
Major Road Impacts	Staging or Work zone does not impact an arterial or collector road.	0	
	Staging or Work zone does impact an arterial or collector road.	1	
On-Street Parking	Work does not require the occupation of on-street parking spaces or loading zones.	0	
	Work requires the occupation of on-street parking spaces or loading zones.	1	
Surface Condition	Roadway or sidewalk surface is maintained.	0	
	Roadway or sidewalk surfaces is not maintained (drilling, excavation) or has potential for damage (crane lift).	1	
Pedestrian and Cyclist Impacts	Work does not require the closure of a sidewalk, multi-use pathway, or bicycle lane.	0	
	Work requires the closure of a sidewalk, multi-use pathway, or bicycle lane and alternative accessible provisions for people using various wheeled micro-mobility device is provided.	1	
	Work requires the closure of a sidewalk, multi-use pathway, or protected bicycle lane and alternative accessible provisions for people using various wheeled micro-mobility device is **not** provided.	2	
Transit Impact	Transit stop is not located in or within a 100m of the work zone.	0	
	Transit stop is located in or within a 100m of the work zone.	1	
Nearby Civic Facilities	Work is not occurring within one block face of a Hospital / School / Community Centre / Law Courts	0	
	Work occurring within one block face of a Hospital / School / Community Centre / Law Courts	1	
Commercial Areas	Work does not occur in a major commercial area (Downtown, Uptown, 12th Street, Sapperton)	0	
	Work occurs in a major commercial area (Downtown, Uptown, 12th Street, Sapperton)	1	
	Use Project Category Assessment Matrix to make the final project category determination. The final project category should be used to identify required and recommended sub-plans and special conditions addressed in the Traffic Management Plan.	**TOTAL SCORE**	

	Project Category Assessment		
	Level 1	Level 2	Level 3
Score	0-4	5-8	9-11
Project Impact	Low Impact	Medium Impact	High Impact
Street Occupancy Permit Application and Review Fee	$128.00 per initial permit	$256.00 per initial permit	$528.00 per initial permit
